

# Panic

## Sublime with Rome

So many people runnin  
Don't know where they're goin.  
Panic and panic and panic  
Showing what side is wrong

I need the reason  
And I've got to know.  
Don't you wish your world was mine?

My only motive  
For destruction  
Is really really what we are

I need the reason  
And I've got to know.  
Don't you wish your world was mine?  
Don't you wish your...

You open doors and close them  
Quicker than the eyes of most.  
Can't you see there is hope here  
It's time for reaction

Shake me up  
Somebody wake me up  
I need to fight for my old mate of pollution  
The rate of solution  
To all of the damage that you've done

Don't you wish your world was mine?  
Don't you wish your...

You open doors and close them  
Quicker than the eyes of most.  
Can't you see there is hope here  
It's time for reaction

I realize what's wrong... wrong with your life  
Quicker than the eyes of most.  
Can't you see there is hope here  
It's time for reaction

How can you say, you don't want to know, don't want to know the truth.  
How can you say, you don't want to know, don't want to know the truth.  
How can you say, you don't want to know, don't want to know the truth.  
How can you say, you don't want to know, don't want to know the truth.

And that's alright  
Oh, that's ok  
And that's alright  
Stop right there...
