

Prophet

Sublime

I ain't no prophet
Don't wanna cure no damn disease
But would you marry me anyway
If I was on my knees

I'm goin' through my time of change
In my time of need...
?

So I thought to myself
I'm gonna marry into wealth
Gonna take everything that she's got to offer
And keep it for myself

She said to me "I don't like what I see"
And I said to her "I don't even know your name"
And she said to me "I don't like what I see"
I said to her "I don't even f*ckin' care"

I ain't no prophet
Don't wanna cure no damn disease
Would you marry me anyways
If I was on my knees

I'm goin' through my time of change
In my time of need...

Love love love
Is my gift to you so love
She said to me "I don't like what I see"
And I said to her "I don't even know your name"
And she said to me "I don't like what I see"
I said to her "But I don't even f*ckin' care"
