

Headlights

SUD

You're going away for the night
Burning the bridges of your old self
Summer will be over soon
Rain will come down

This time you'll know
You couldn't be found if not lost at all
Are you gonna stay hidden?
The sun's coming down on this pavement

Darkness won't stop us
We'll keep the headlights on and on
The spaces between us
Inch by inch we're getting closer
Until our arms are back together

My own walls ain't crashing
Are you gonna help me break them now?
It's gonna be restless for us
But it will come down

Darkness won't stop us
We'll keep the headlights on and on
The spaces between us
Inch by inch we're getting closer
Until our arms are back together

Darkness won't stop us
We'll keep the headlights on and on
The spaces between us
Inch by inch we're getting closer
Until our arms are back together
Back together
Inch by inch we're getting closer
Until our arms are back together
