

Wish

SUD

Wish you could see the way I see
Your face and all your body moving
Wish you could hear the way you sing
And all the words that you speak

So many things I wanna say
So few words can describe
I won't let it slip away
This feeling I have inside

Wish you could feel the way I feel
When you hold me close
Don't let go
Wish I could taste sweet sweet lips
For now I'll wait til you say you want a kiss

So many things I wanna say
So few words can describe
I wont let it slip away
This feeling I have inside

Wish you could see
Wish you could hear
Wish you could feel
Wish you could taste
