

Black Vivaldi Sonata

Sudan Archives

You've fallen down
Morning star, oh my God
Son of the dawn
How you cut to the ground
You're not a fool
No darling, misunderstood

I don't care if we start a war in heaven
Who really needs to be rescued?
Why can't we blind them in the room together
Wouldn't understand it if we told you

So, I've fallen down
Can't believe I fuck with you now
Lion of lovers
Or lion seeks to devour

I don't care if we start a war in heaven
Who really needs to be rescued?
Why can't we blind them in the room together
Wouldn't understand it if we told you

I don't care if we start a war in heaven
Who really needs to be rescued?
Why can't we blind them in the room together
Wouldn't understand it if we told you
