

I saw you in the fight

Doesn't even know  
Green like aloe  
You don't wanna see  
What's beneath all these leaves  
Where will we be  
If I'm lookin' at me?  
I don't wanna see (No)  
The untold, it's so close  
You don't wanna go that way  
You don't wanna go that way  
I saw you runnin' down the street and you told me demons are after me

I saw you in the fight  
You gave me all my time  
I want it to be alright  
You're runnin' on my mind  
Runnin' on (Saw you in the fight)  
Runnin' out (Saw you in the fight)

We don't got to give in to the flue  
We don't got to give in to the flue  
We don't got to give in to the flue, oh  
We don't got to give in to the flue  
We don't got to give in to the flue  
We don't got to give in to the flue, oh

Achin', you snitchin'  
You itchin', you sneezin'  
It's not what it looks like, what you thought  
You feel like it's something, you blame it on others  
It's my fault, it's my fault, I'm not tough  
You achin', you sneezin'  
You snitchin', you itchin'  
It's not what it looks like, what you thought  
You feel like it's something, you blame it on others  
It's my fault, it's my fault, I'm not tough

Woke up today with a rude awakening  
He so two-faced lookin' at me sideways  
Hopped on the freeway, pulled in my place  
Baby, what you gotta say?  
I fantasize the times we had it right 'cause I need it  
Yes, I freaked it  
I find it hard to reconcile that night, can't believe it  
Stay with me, sweetie  
He wants to stay, I wanna go  
He wants to go, I wanna stay  
Why can't we stay at home  
And find out where we've gone?

We don't got to give in to the flue  
We don't got to give in to the flue  
We don't got to give in to the flue, oh  
We don't got to give in to the flue  
We don't got to give in to the flue

We don't got to give in to the flue, oh
