My feet can't touch the ground
'Cause I can't seem to grasp on what's goin' wrong
We need to settle down
'Cause we don't got time to let time pass us by
And what's up with the frown?
'Cause I know we'll pass this test, we'll be alright
The world is spinnin' 'round
And we don't go time to sit and dwell on lies

I got that energizer (Yeah)
That freakalizer
You got that tranquilizer (I got that tranquilizer, baby)
That frequalizer
I got that energizer (You got that freakalizer)
That freakalizer (That tranquilizer)
You got that tranquilizer (That frequalizer)
That frequalizer
I got that-
I got that energizer
That freakalizer
You got that tranquilizer
That frequalizer
I got that energizer
That freakalizer
You got that tranquilizer
That frequalizer
I got that-

No, I don't wanna be lonely
But these hormones are makin' me horny
And the full moon is drivin' me crazy
Can we please try again in the morning, darling?
No, I don't wanna be lonely
But these hormones are makin' me horny
And the full moon is drivin' me crazy
Can we please try again in the morning, darling?

No, no, I don't wanna be alone, no
And I pray, pray that I learn, learn
To never get on your nerves, nerves
But if I do, baby, it's alright
'Cause I just wanna hold you all night
I just wanna make this right
I just wanna see your light bright
I just wanna be real close
I hold you, baby, never let go
And when you hold me, baby, hold me tight

'Cause that's the only way it feels right
I wanna love you 'til you get old
And dance all night until this beat goes
I just wanna build LEGOs
I just wanna build, let's go

I got that energizer
