

I'm tired, I'm bothered
Yet dwelling on the fact
You're just like my father
You don't know when to quit it, admit it

I don't need your helping hand, no
Tired of this silly dance
There's something special on the high note
Don't get it twisted, this is where I stand
Don't get consumed, don't want to mourn too
Had a couple hurts, now it's my turn
Can't stand to see a nigga blow me
Don't get it twisted, this is where I stand

You think I'm soft like Iceland moss
All over me like harmonies
Life's so breezy, so smooth like us
I think that's why we're eye to eye

I'd rather lose focus instead
Enjoy these moments to spare
Looks like we're going nowhere
I let my path guide my heart
And saw the words on the walls
Our love's a cave in the dark
It read that you're all talk

He said how you going to walk around
Acting like you don't even care?
Last year we were so close
Tell me how did we get here?
If you don't know, then I'll make it clear

I don't need your helping hand, no
Tired of this silly dance
There's something special in the high note
Don't get it twisted, this is where I stand

You think I'm soft like Iceland moss
All over me like harmonies
Life's so breezy, so smooth like us
I think that's why we're eye to eye

You think I'm soft like Iceland moss
Watch me prance in the Iceland loft
That we built with the Iceland thoughts
While you watched through the window cold
I love you soft like Iceland moss
I loved you soft like Iceland moss
I held you close like Iceland moss
I held you close, then I saw you off

You think I'm soft like Iceland moss
All over me like harmonies
Life's so breezy, so smooth like us
I think that's why we're eye to eye
