

Tonight (Could Be the Night)

Sue Thompson

Tonight could be the night
To get in sight darling I do
And tonight could be the night
To get that ring around my finger
Oh my darling hold me tight
And tonight just could be the night

Tonight could be the night
To fall in love with someone like you
Oh my darling hold me tight
And tonight just could be the night

Tonight could be the night
To get that ring around my finger
Oh my darling hold me tight
For tonight is that night
