

Never Even Left

Sueco The Child

It's like you never even left
It's like you never even left
I swear, I'm always gonna love you 'til I'm dead
I'll think about you 'til I'm gone
I'm probably never movin' on
I swear I'm always gonna have you in my head
It's like you never even, never even

Left too soon and it's not fair, four reasons why I'm unaware
Woke up one day and you were there, damn
I hope that when you hear this song, you turn it up and sing along
Even if you sing it wrong, it's like
'Cause when I close my eyes

It's like you never even left
It's like you never even left
I swear I'm always gonna love you 'til I'm dead
I'll think about you 'til I'm gone
I'm probably never movin' on
I swear I'm always gonna have you in my head
It's like you never even, never even left

Maybe if time moved differently
You'd still be right here next to me
But every time I close my eyes

It's like you never even left
It's like you never even left
I swear I'm always gonna love you 'til I'm dead

It's like you never even left
It's like you never even left
I swear I'm always gonna love you 'til I'm dead
I'll think about you 'til I'm gone
I'm probably never movin' on
I swear I'm always gonna have you in my head
It's like you never even, never even left
It's like you never even, never even left
I swear I'm always gonna love you 'til I'm dead
