

Some say it's too late

Lately I've been tryna get the fuck out of town
Lookin' for somebody that I just haven't found
I took a pill and I got lost in the crowd
Whoa, whoa

And I can't recall anything from last night
From last night
Novacane on my brain, I'm alright
I'm alright

Lately I've been wildin', I've been smoking a pound
Lookin' for somebody that I just haven't found
I downed a fifth now as we zoom through the town
Whoa, whoa

And I can't recall anything from last night
From last night
Novacane on my brain, I'm alright
I'm alright

Hoo, hoo, hoo-hoo
From last night
Hoo, hoo, hoo-hoo
From last night

And I can't recall anything from last night
From last night
Novacane on my brain, I'm alright
I'm alright

Alright
Alright
Mama, I ain't comin' home
Mama, it's been too long
I'm gone
