

Antidepressants

Suede

There's so much love
In this place
There's so many ways to define
Our infinite states
Teenage tribes in the bathroom again
Shut up or they'll never mention your name
I try to be brave, but there's not much time
Is there?

I'm on antidepressants, I just lie awake
I'm singing a song while I'm happy
I'm on antidepressants, I just lie awake
Singing a song while I'm happy

And this is the house
That you saved up for
And these are the windows
And these are the walls

I'm on antidepressants, I just lie awake
I'm singing a song while I'm happy
I'm on antidepressants, I just lie awake
I'm singing a song till you're bouncing back to me

Antidepressants, I just lie awake
I'm singing a song while I'm happy
And I'm singing a song while I'm happy
Well, I'm singing a song while I'm happy

It's your choice, though
Fill in the forms
Juggle the numbers

I look in my house, it's a luxury design
But there's shit on the walls that I'm hiding behind
There's a room at the back in case you get scared
Prisoner

I'm on antidepressants, I just lie awake
I'm singing a song while I'm happy
I'm on antidepressants, I just lie awake
I'm singing a song till you're bouncing back to me

Antidepressants, I just lie awake
I'm singing a song while I'm happy
And I'm singing a song while I'm happy
And I'm singing a song while I'm happy

I'm on antidepressants, I just lie awake
I'm singing a song while I'm happy
And I'm singing a song while I'm happy
And I'm singing a song while I'm happy
