

God's Gift

Suede

You raised me on Whitesnake
On Prince tapes, on summer sounds
And you saved me and gave me
Dance tunes and hand me downs

You said that we were just good friends
But we jumped red lights all the way to the end
There you go, there you go again

You looked at me in a restaurant
And a lonely tune was the only sound
And you took me out under center point
And we got lost in the lonely crowd

You said that we were just good friends
But we jumped red lights all the way to the end
There you go, there you go again

And you said that we were just good friends
But we jumped red lights all the way to the end
God's gift, there you go again
