

Trance State

Suede

Saw it all on the video phone
Heard a voice cry soft and low
Recording it all on audio
Now I know what you did last summer
I'm unsociable it's fine
Blame it on the Mirtazapine
Hope I'm going somewhere nice

Oh no I'm in a trance, I'm in a trance state
I see your face and I hear your name
But I'm in a trance, I'm in a trance
I'm in a trance state

I think you know me much better now
Since my emotional breakdown
Riding the fear instead of projecting myself back to me better
We're all trying to stay alive
This emotional baseline
I hope we're going somewhere nice

Oh no I'm in a trance, I'm in a trance state
I see your face and I fade away
And I hear your name
But I'm in a trance, I'm in a trance state

Oh no I'm in a trance, I'm in a trance state
I see your face and I fade away
And I hear your name
I'm in a trance, I'm in a trance state

Ooooo oooooh
Oooooh

Oh no I'm in a trance, I'm in a trance state
I see your face and I fade away
And I hear your name
I'm in a trance, I'm in a trance state

Oh no I'm in a trance, I'm in a trance state
I see your face and I hear your name
But I'm in a trance, I'm in a trance
I'm in a trance state

Oh no I'm in a trance, I'm in a trance state
I see your face and I hear your name
But I'm in a trance, I'm in a trance
I'm in a trance state
