Suffokate

welcome to my shadow I've been here forever waiting on your presence still i stand unbroken i have always believed this and you were so fucking cruel in your darkest of hours you will be waiting alone [4x] power-molds-static [2x] static Dark trials dark trials and your wounds they make me numb my fatal shot cause i have a war in me-overlooked for so long and the cost is your life its done a mainline, a function the joy of dishonor-bleed for the weak one that made you hollow in life-hollow in life i have waited for so long [4x] fatal shot my fatal this fatal the fatal shot
