

Death Star

Sufjan Stevens

Death star into space
Trash talk, violate
What you call the human race
Go on, wipe that look off your face

Death star into space
Trash talk, violate
Witness me resist the hate
It's your own damn head on that plate

Death star into space
Vandalize what you create
Trash talk, violate
Go on, wipe that look off your face

Death star into space
What you call the human race
Expedite the judgment day
It's your own damn head on that plate

Death star into space
Watch me now and take the bait
Battle star, cannot fake it
Go on, let the future deflate

Death star into space
What you call the human race
Witness me resist the hate
It's your own damn head on that plate

Death star into space
Trash talk, violate
Vandalize what you create
It's your own damn head on that plate

Death star into space
What you call the human race
Witness me, resist your fate
It's your own damn head on that plate
