

I Got U

Sugar Jones

Like a bee, a honey bee,
Baby come to me, 'cause you taste so sweet
Yeah you satisfy my needs
Like a bird, a hummingbird
Sugar sing to me something like I never heard
As if tomorrow should cease

And if the world outside, should end tonight
I wouldn't care 'cause I , I got heaven on my side
And if the stars should fall, I wouldn't notice it at all
'Cause I got one in my sight,
I got U...I got U

Like rain, a candy rain
Coming down on me in a most peculiar way
I ain't feeling no shame, I'm sayin'
Underneath the apple tree, baby you and me
Sweetly, like Adam and Eve

I got it..I want it...I need it
I got it..I want it...I need it

And if the world outside, should end tonight
I wouldn't care 'cause I , I got heaven on my side
And if the stars should fall, I wouldn't notice it at all
'Cause I got one in my sight,
I got U...I got U
