

# Never Leave Hurt Alone

Sugar Jones

Why don't you ever leave hurt alone  
It's over now you better stay gone  
This one thing I can't condone  
You never leave hurt alone  
Why can't you ever leave hurt alone  
I can't deny a feeling so strong  
'Cause I could love no one but you  
Should have left hurt alone

Seen you on the street watching you  
You watching me, So hard to speak, Small talk, nothing sweet  
Trying to avoid misery  
It's been a while, as you can see, you're making me feel the tragedy  
All over again it's scaring me  
'Cause I don't know if I can pretend  
That I don't love you no more

I should have kept on walking  
But something inside of me said  
Maybe it'd be worth the time talking to you  
Now I'm falling and I feel like a fool

I really don't know what to do  
'Bout me and you  
I'm so confused  
Already felt all the pain and abuse  
'Cause in my mind  
Deja vu  
But when my heart's telling me  
To take a chance  
All I see is you, True romance, You already know  
You could have this love, I just don't wanna be  
Taken advantage of

Have you ever been  
Torn between  
Heart and mind  
It's so hard to find  
The sould that we once shared  
The only way  
Would be to swallow my pride  
Let you back inside  
And dedicate my life to you  
I'm falling

Why don't you ever leave hurt alone  
This is one thing I can't condone  
You never leave hurt alone  
Why don't you ever leave hurt alone  
It's over now you better stay gone  
This one thing I can't condone  
You never leave hurt alone  
Why can't you ever leave hurt alone  
I can't deny a feeling so strong  
'Cause I could love no one but you  
Should have left hurt alone
