

Make it Easy

Sugar Ray

I love the way you are and what you do
I follow you around 'cause you're something beautiful
To me, I swear you make it all so easy
If we could dance the night away and never worry
'Bout the bills we gotta pay, it's such a hassle
When your life gets in the way, but we should know better

And if some other day
You decide to say
That you'll run away with me
I'll show you how it feels to be alive

I love the way you are and what you do
I follow you around 'cause you're something beautiful
To me, I swear you make it all so easy
If we could dance the night away and never worry
'Bout the bills we gotta pay, it's such a hassle
When your life gets in the way, but we should know better

Make it all so easy
Make it all so easy
Make it all so easy
Easy, easy

Can you see the lights in front of us?
All those miles and miles in front of us
Just another way, just another day, goodbye

I love the way you are and what you do
I follow you around 'cause you're something beautiful
To me, I swear you make it all so easy
If we could dance the night away and never worry
'Bout the bills we gotta pay, it's such a hassle
When your life gets in the way, but we should know better

Make it all so easy
Make it all so easy
Make it all so easy
Easy, easy

Make it all so easy
Make it all so easy
Make it all so easy
Easy, easy
