

# What The World Needs

Sugar Ray

What the world needs is love  
What the world needs is love  
Sent from the stars above  
What the world needs is love

Stand up and make things right  
So that the brokenhearted  
Can see a little light  
Cool down the bass, wind up your waist  
Sound system in a tenement yard  
[?] gettting it started  
The music in our hearts  
From the sound of the waves and the dub of the bass

When the moon is big and bright  
I see the starlight in your eyes  
(Whoa-oo)

What the world needs is love  
What the world needs is love  
Sent from the stars above  
What the world needs is love  
Did we give all our love?  
Did we even give enough?  
Sent from the stars above  
What the world needs is love

Don't need a night [?]  
It's just a reggae [?]  
Sly and Robbie told me so  
Pull down the bass, wind up your waist  
Slow down, hold out  
Anything that you can do  
So it gets better  
So it gets better

When the moon is big and bright  
I see the starlight in your eyes  
(Whoa-oo)

What the world needs is love  
What the world needs is love  
Sent from the stars above  
What the world needs is love  
Did we give all our love?  
Did we even give enough?  
Sent from the stars above  
What the world needs is love

You tell me that you're leavin'  
It sets my heart a-beatin'  
I've said it before and I'll say it again

What the world needs is love  
What the world needs is love  
Sent from the stars above  
What the world needs is love

Did we give all our love?  
Did we even give enough?  
Sent from the stars above  
What the world needs is love

What the world needs is love  
(Love sweet love, love sweet love)  
What the world needs is love  
(Love sweet love, love sweet love)  
Sent from the stars above  
(Love sweet love, love sweet love)  
What the world needs is love  
(Love sweet love, love sweet love)  
Love sweet love, love sweet love  
Love sweet love, love sweet love  
Love sweet love, love sweet love  
Love sweet love, love sweet love
