You got me all twisted  
I'm upside down fallin'  
I'm swimmin, I'm crazy for you

You got me all twisted  
You're in my mind chasin' the vision  
I'm head over heels for you

When you told me I ain't your body type  
I was scared you would never hold me right  
I needed the whole world to not turn me down

When you told me there's so much more than that  
And you always found the things I could never see in myself  
I knew it  
I loved you

You got me in pieces  
I'm torn for what this is  
I'm hurtin' baby I'm hurtin' for good

You're playin the game  
I'm dyin' on the way  
But I know I got some good things  
Headin' my way

When you told me I ain't your body type  
I was scared you would never hold me right  
I needed the whole world to not turn me down

When you told me there's so much more than that  
And you always found the things I could never see in myself  
I knew it  
I loved you

I knew it  
I loved you

I knew it  
I loved you

I knew it  
I loved you

I knew it  
I loved you
