astroboy.

suggi

I grew up loving the stars
Though they taught me to hate the night
Back of my mind, loving the dark
Always wanting to touch the moon

Then I raised my hands up real high
They called me stupid
When I asked why we couldn't fly

Am I too far away of my friends?
Or I am late?
I'll never know if left is right if nobody trusts me, but

Out of the universe, oh no
A million stars just passing by
Say that I'm nothing but I'm
More than just a debris
Out of the whole world, baby
Nobody could do it like I do
My ma didn't die for nothing
I'm more than just a boy, yeah

Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah
Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah

Oh, the rain
You're losing your flame
Where'd the burn, the passion go?
You run through the pain
You're losing your aim
And you feel like you alone missed the grow

Don't be afraid, raise your hands up real high
They call you stupid
When you're already up in the sky
(Oh, let them talk)

You're just too far ahead of your friends
You're not behind
You'll never know if left is right
If you don't try, trust me boy

Out of the universe, oh no
A million stars just passing by
Say that you're nothing but you're
More than just a debris
Out of the whole world, baby
Nobody could do it like you do
You're not gonna die for nothing
You're more than just a boy, yeah

Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah
Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah

When every-body falls a-sleep
When every-body falls a-sleep
When every-body falls a-sleep
When every-body falls a-sleep
(That is when dreams come alive)
When every-body falls a-sleep
(That is when dreams come alive)
When every-body falls a-sleep
(That is when dreams come alive)
When every-body falls a-sleep
(That is when dreams come alive)
When every-body falls a-sleep
That is when dreams come-

Out of the universe, oh no
A million stars just passing by
Say that I'm nothing but I'm
More than just a debris
Out of the whole world, baby (yeah, yeah)
Nobody could do it like I do
My ma didn't die for nothing
I'm more than just a boy, yeah

Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah
Yeah
(I'll never know if left is right if nobody)
Yeah
I'm more than just a boy, yeah
