

Bunny Do

suggi

And the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too

And the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too

You don't owe me, a word is gonna cut it
Talk about you, and tell me what you wanna
Here I am, genuine
I'm all ears for you
And you know I keep my words, don't you?

Heaven is not that great, I know it
You gotta live, God has sent you to enjoy it (enjoy it)
Happy is very close to your heart
Don't be afraid to move yourself

Oh boy, you're beautiful
Just the way you are
Don't you ever feel nothing else

Baby you got everything
Don't you see them eyes on you?
So keep your head high and shoulders back

And so the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?

And the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?

This time it's on me, I live on two planets
Leave it to me
I've never done it but I'm confident I can

We took it far, but I know there's further
You ain't 'bout'a run, but I know you're a gamer

Oh boy, you're beautiful
Just the way you are
Don't you ever feel nothing else

Baby you got everything
Don't you see them eyes on you?
So keep your head high and shoulders back

And so the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?

And the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?

And so the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?

And the honey don't see why they water
Why do they never see the boys go dry
When the bunny go do what the bunny do
Do you ever feel bunny too?
