Dude...Wtf

suggi

Taking your time, are you still mad?
What 'you gonna do, if I ever come back?
Don't know what to do, when your hearts all black
No, I don't understand

Talkin' your talk, and you still look bad
Go ahead and ask everybody else, who's the one crazy now
So take it back, (take it back!)
No, I don't understand

(You should've learned quick, now you're on the run, run)
(You only thought you loved me with my zipper undone)
(Never what I want, Never kiss me twice)
(You should'a learned quick, now you're on the run, run)

When you said you'd never hold me back, cause I ain't what you want
Then say you didn't wanna see me with someone new
My God, what the fuck?

Maybe if you loved me like you said, then tell me what you want
Don't blame it on the man, claiming he played you a fool
My dude, what the fuck?

Time for round two, don't give me shit
Eat your own words, what a hypocrite
(Uh) Don't treat it like break up, you called it quits
No, I don't, I don't understand

We were like glue, and then we split
And if I'm being honest, I love it, I admit
You wanted me stranded on your island
No, I don't, I don't understand

(You should'a learned quick, now you're on the run, run)
(You only thought you loved me with my zipper undone)
(Never what I want, Never kiss me twice)
(You should'a learned quick, now you're on the run, run)

When you said you'd never hold me back, cause I ain't what you want
Then say you didn't wanna see me with someone new
My God, what the fuck?

Maybe if you loved me like you said, then tell me what you want
Don't blame it on the man, claiming he played you a fool
My dude, what the fuck?
What the fuck?

When you said you'd never hold me back, cause I ain't what you want
Then say you didn't wanna see me with someone new
My God, what the fuck?

Maybe if you loved me like you said, then tell me what you want
Don't blame it on the man, claiming he played you a fool
My dude, what the fuck?
What the fuck?
