

## EVERGREEN

suggi

Let me take you out of the LA (mm)  
Make your yuletide specially gay (mm)  
Anything you like  
Is everything I like  
Many times a life  
Seasonal kryptonite  
See through my lies  
When I say good-bye

Look in my eyes, the signs are evergreen  
(Come say hello, to the mistletoe)  
Evergreen  
(Your eyes will glow, even when you're cold)  
Evergreen  
(Come say hello, to the mistletoe)  
Look into my eyes and the signs are ever...

Green  
Like the thing you taught me to smoke  
Weren't young but we were goin' broke  
One word we coulda grown old  
Egg yolk, yolk, yolk  
I don't keep any hate to hold  
If you could just take control  
Would you ever keep me close?  
'Cause you know I love you most

Anything you want  
I think I'll want  
From the restaurant  
To the kinky one  
See through my lies  
When I say good-bye

Look in my eyes, the signs are evergreen  
(Come say hello, to the mistletoe)  
Evergreen  
(Your eyes will glow, even when you're cold)  
Evergreen  
(Come say hello, to the mistletoe)  
Look into my eyes and the signs are ever...

Green  
Green  
Are ever...  
Green  
Green
