

**fuck u, goodluck.**

**suggi**

Was it really just me?  
Did you really feel nothin' at all?  
If you hated the way I bothered you  
Then what can I say to that?

And I can't fall asleep  
'Cause I know that you follow my dreams  
Every step you take away from me  
You're deeper in my chest

No one compares  
Nothin' compares  
I've never loved and loved so deeply  
But how the hell could I argue a "no"?

'Cause you'll never change  
For anyone's sake  
I could've gave, and paid, and saved, and killed  
But I guess no is a no

Give it a year or two  
And I'll be over you  
I'll be blamin' me, "oh stupid me"  
"Haha fuck my life"

Shed a tear or two  
For the heart I gave to you  
Hope you learned how not to break a heart  
So fuck you, and good luck too

I just followed my heart  
But it turned, and it shredded apart  
And I'm mad, and so embarrassed  
I'm scared that I'll never love again

And I can't fall asleep  
'Cause I hate that I'm nothin' alone  
"Love yourself, be confident" they say  
But you were my confidence

No one compares  
Nothin' compares  
I've never loved and loved so deeply  
But how the hell could I argue a "no"?

Cause I'll never change  
So used to the pain  
But shouldn't you take some blame for making me love you at all?

Give it a year or two  
And I'll be over you  
I'll be blamin' me, "oh stupid me"  
"Haha fuck my life"

Shed a tear or two  
For the heart I gave to you  
Hope you learned how not to break a heart

So fuck you, and good luck too

Woah, woah

Woah, woah

Give it a year or two

And I'll be over you

I'll be blamin' me, "oh stupid me"

"Haha fuck my life"

Shed a tear or two

For the heart I gave to you

Hope you learned how not to break a heart

So fuck you, and good luck too
