

Nobody sees when you beat your chest
When you're out of life
No one comes by

Sometimes it's fine not to be your best
Come take your time
'Cause I feel you

Out of this whole wide world
There's no one to talk to
It's funny how when you need someone the most
You just wanna be alone

Look up at the moon
And I know you're wishin' upon the same night sky
It calls for your name
Whenever the clock hits eleven eleven
You, (you)
I know you're barely gettin' by
Just call for my name
I'll send a hug through the moon

Lovin' gets hard when you don't love yourself
You gotta trust
To put yourself first

Sometimes it's work just to stay alive
I know it's tough
But I know you'll get through

Out of this whole wide world
There's no one to talk to
It's funny how when you need someone the most
You just wanna be alone

Look up at the moon
And I know you're wishin' upon the same night sky
It calls for your name
Whenever the clock hits eleven eleven
You, (you)
I know you're barely gettin' by
Just call for my name
I'll send a hug through the moon

Look up at the moon
And I know you're wishin' upon the same night sky
It calls for your name
Whenever the clock hits eleven eleven
You, (you)
I know you're barely gettin' by
Just call for my name
I'll send a hug through the moon
