

Universe...

suggi

You are my sun and moon
Whether life or doom
I wanna be with you
Through the universe

It's true
I get lonely sometimes
It's true
It's only ever inclines
But god bless
About time you catch the ball

I don't wanna play dodgeball
(Shoot)
If I try I'm gon' score like
(Shoot)
Anytime, I'm gon' score like
(Shoot)
Got me writing all these scores like
(Bam bam bam)

You are my sun and moon
Whether life or doom
I wanna be with you
Through the universe
You are my sun and moon
Whether life or doom
I wanna be with you
Through the universe

We could be (Mars)
I don't gotta try
We could be (Jupiter)
Still close, still close
Or even (Saturn)
Not a chance
Uranus

I been looking round and round in wrong ways, mister
Uber, take me where the heart is, take me home, mister
Showed up uninvited, sorry but I now whisper
Did you cheat on me or not? I'm gonna need answers

I've already
(Shoot)
Through all your points in your credit card
(Shoot)
Never thought I'd be the type to key cars
(Shoot)
Got me writing all these scores like
(Bam bam bam)

You are my sun and moon
Whether life or doom
I wanna be with you
Through the universe
You are my sun and moon

Whether life or doom
I wanna be with you
Through the universe

We could be
I don't gotta try
We could be (Jupiter)
Still close, still close
Or even (Saturn)
Not a chance
Uranus

You are my sun (Mars)
Whether life (Jupiter)
I wanna be (Saturn)
Through (Uranus)
