

## Face Of God

### Suicidal Angels

I see the world, it goes insane  
Nothing's like before  
The speech of truth falls apart  
Violence I seek it more  
There's no escape, there's no return  
For victims caught in my rage  
White turns to black light turns to dark  
Benn sacrificed in flames

Insanity serenity the scales of mind deaden  
Bodily sedated shifting in to heaven  
Feel the claws like burning blade to tear your flesh apart  
Savagely your soul is raped before you spit your blood

Insanity serenity the scales of mind deaden  
Bodily sedated shifting in to heaven  
Feel the claws like burning blade to tear your flesh apart  
Spit the face of God

Spit the face of God  
The face of God  
You'll lose your spine, passively  
Where can you turn to now  
You have no grip, mind slips  
To which filthy god you bow  
Invited to a set up game  
Cold murder kids to die  
One by one my enemies  
Will face the coldest eyes

Slavery, injustice, a role forced to play  
Since the day you're born, in chains you live, the sins you have  
to pay  
Peace and light, promised lies, adorn the steps you make  
No promised land, a fallen lad, to deal with idols fake
