

# Reborn In Violence

Suicidal Angels

Born here died here  
An unwanted child  
Eyes of filth lust of greed  
A sinful path of life  
What will come, what will face  
Unknown to humankind  
Soon you have to see the truth  
Before you see the light

I will be  
Reborn in violence  
Reborn in violence  
Reborn in violence  
I will be  
Reborn in violence  
Reborn in violence  
Reborn in violence

Born here died here  
A soul that never rests  
Living nightmare spawn disease  
Spread upon your chest  
What is coming from beyond  
Boiling blood arise  
Dissecting now my empty corpse  
Before the sun comes

I will be  
Reborn in violence  
Reborn in violence  
Reborn in violence  
I will be  
Reborn in violence  
Reborn in violence  
Reborn in violence

Once I died my signs were left  
In blood eternally  
Burning souls, corrupting lives  
Your time has come to bleed  
No more your chains upon my life  
The shackles more than useless  
I return my coming back  
Is more than just revenge

I am  
Reborn in violence  
Reborn in violence  
Reborn in violence  
Reborn in violence  
Reborn in violence  
Reborn in violence
