## Suicidal Tendencies

[Louiche Mayorga/Mike Muir]

S.T.!

Listen up real well, I got a story to tell  
Pay attention this way to what I've got to say  
Took it to the street, rap to the people we meet  
We're rocking out hard to the Suicidal beat  
Tried to deny our right, so we put up a fight  
Just doing our thang, they tried to call it a gang  
Saw the way we look, and that's all that it took  
All that they wrote, they had their scapegoat

We're the few, we're the proud, we like to jam it loud  
The music we play won't have it any other way  
We're armed to the bone with our music and our tone  
Recruiting on the street to the sound of our beat  
Growing larger every day and every time we play  
Don't need no college plan, we're just a hard-rocking band  
We like our music to please but we ain't gonna appease  
No pressure's too much to make us change our touch

Don't be no fool, don't let your prejudice rule  
Don't judge by your fear, judge us by your ear  
Can't believe every word of every story you've heard  
Just play the song, I know you'll start to rock along  
Well I don't care 'bout the clothes you wear  
It's the size of your heart, not the length of your hair  
Don't make no difference to me, the color that you be  
Black, white or brown, it's all the same to me

Well if you still don't believe you best get up and leave  
Do what you must do, but this ain't the place for you  
You got no right but if you start a fight  
We'll be rockin' your head but with our fists instead  
I'll fight it with the band, right down till the end  
Ask anyone I've met, this ain't no idle threat  
Don't flap no lip and it won't come to hip  
But as for me, I'm down with the Army
