## Suicide Silence

Here we are,  
Are we transparent?  
Fall into the skies with me  
Hope, is a discretion  
Anger at a God!

It takes, nothing to say  
Just how still you had me!

Silence, breathing in your fear  
Silence, death is all I hear

Bleed! You fucker!

War, berates us  
The simplest heartbeat connects us  
Rivers are flowing to the ocean  
I will meet you at the bottom

It takes nothing to say  
Just how still you had me!

Silence, breathing in your fear  
Silence, death is all I hear

Die! You fucker!  
Your fucking death is complete

Hold head high  
Ego must be low  
To move ahead  
You must let go

To hold head high  
Ego must be low  
To move ahead  
You must let go

Silence, breathing in your fear  
Silence, death is all I hear
