

Codeine, which you all know is syrup
I started drinkin' it because I'm from the south, New Orleans
And ehm, we grew up on UGK and all, ehm, Ghetto Boys
And people been drinkin' syrup for years

Still riding with my devils
Ain't shit changed
Gun to my temple
Sharpen up the blade
Feel the motherfucking phonk like it's '93
Grim reaper in a jeep when I hit the streets
Motherfuckers better hide
Better duck quick
It's the sandman
Better run
Shift back to my old ways, old days
Pill bottles in the cabinet
I can't feel my face

Baby
Fuck what they say
Full of drugs
Can't feel my face

Baby
Fuck what they say
Full of drugs
Can't feel my face

Dope in a bag
Brown-yellow rock
They don't know slick
They don't know the block
Tell me what you want?
Tec or the Wok?
Say the world is yours
Got your world in my sock
Hoes tryna fuck
Hoes tryna lock
Eat that bitch's box
Suck my dick and give me top
How could I forget?
Medicating with Gelatto
Car sports model and my gun is semi-auto
Lately trip a lot
Lately sip a lot
Scripts from my doc
Finesse him like a cop

Baby
Fuck what they say
Full of drugs
Can't feel my face

Baby
Fuck what they say
Full of drugs

Can't feel my face

Three houses, 2 cars

I'm a boss

Facts

Spent a hunny thou sucking all my snot back

Fucking ducking

That's a small quack

Blowing out a broad's back

I can't fucking cum because my dick is numb and all that

Fall back

I'ma call back (psyche)

Where my dogs at?

Lining up the chalk fat

Yeah, her ass left

But she brought it back

Shawty pointing at that shit

So I bought her that

Baby

Fuck what they say

Full of drugs

Can't feel my face

Baby

Fuck what they say

Next time they talk

I'ma fuck their face

Reach into my pocket

Yeah, I fucking got it

Oooh that shit was fire like the bottom of a rocket

Blunt full of gossip

Just so I don't vomit

Never play it cautious

Could give a fuck if I lost it

Fuck a 4

Yeah, gimme 30 o's

It's time to fucking go

It's time to fucking go

Baby

Fuck what they say

Full of drugs

Can't feel my face

Baby

Fuck what they say

Next time they talk

I'ma fuck their face

I can't stop now

What's the point?

I can never calm down

I can't stop now

What's the point?

I can never calm down
