

## Dejection

\$uicideboy\$

Scarecrow rising while devising  
My master plan to move in silence  
Live through violence, blood flow driving  
Me to kill a fuck boy hiding  
Manic schizo, life dejected  
Don't think I'm soft 'cause I'm depressed, bitch  
Just infected, just neglected  
Always rejected but respected  
Lucifer's first born of the fallen  
Triple Six screams bodies calling  
I've evolved into revolving  
My own way of problem solving  
Murder, murder, murder, druggie junkie  
Body burning if I'm lucky  
Flames of hell that burn my flesh  
\$uicide I scream 'til then

Fuck boy wanna talk shit  
Put the Mac 10 in his mouth, just the tip  
Zip up my brain  
666 stiches I feel the pain  
No shame  
Just saying  
Big bang I'ma Saiyan  
Who knew Yung Plague wouldn't freeze in the tundra it's true  
Hot as a block when the cops know the spot  
Cop a rock and then crack in his top leave him blue  
Now your skull got a big crater  
See you later alligator  
Bring the bodies to the swamp  
Leave 'em as bait for the chomp and I'm gone
