

## Jeffer Drive

\$uicideboy\$

Slit my own wrist bitch I been killing shit  
Bitch pick up ash off the blunt when it spill  
I ain't paying for shit I got 3 hunnid pills  
Palm full of pills I might die any day  
Hope I die with no will  
There's a way to escape  
It's called digging your grave  
I don't chill with nobody or meet face to face  
I'm just waiting in here until I can creep out of my cave  
Don't try and save  
What cannot be saved  
I cannot be saved  
Cause I am a slave  
To my own mistakes  
I hope I fade away like a memory fades in my brain  
Pray that I slay all the prey  
Blade that drains my fucking veins  
Satan please save me today  
I break away now I've escaped

Slumped up off my habits with two full metal jackets  
I'm that slender man up in your closet  
Panic when you think about it  
That grey haired thugging lil shawty  
Paranoid can't be too cautious  
Roll up  
Finna to blow on this dope  
Could be heroin could be smoke  
Either way I'm gonna blow  
Numb till I can't feel no more  
R.I.P. to the one they call \$lick  
D.I.E. when you fuck with the clique  
Pull up quick with the sticks empty clips  
Then I dip with your bitch  
Made her suck dick  
She was shit  
I got pissed so I didn't hit  
Just hit a lick hit the whip and then I dipped swift
