

Kill Yourself (Part IV)

\$uicideboy\$

They figure me a dead motherfucker
Romeo da Black Rose, sheddin' petals
Hold me over 'til they finish digging me a hole
I need a new beginning, so I tiptoe behind my foe's, bitch
Unzip, I'm throwing it into that bitch's hole
Calling all my enemies the same place where that dick go
Fuck an online pussyboy talkin' shit
Acting like it was a brick thrown through a window
Sticks and stones may break my bones, but words will never hurt
me
Some slick hoes might catch me froze, but soon they will desert
me
Get rich, blow that smoke in O's, don't ever act so thirsty
Sick diss though, fuck all this, slowly die before I'm thirty

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah

Isn't it so convincing how that blade slide 'cross my throat?
Coke residue all in my nose
Couple graves dug for my foes and it goes (Eyes, eyes)
On and on, my girlfriend calling my phone
Ain't seen her in about a week, this depression got me weak
Ever wake up every day and you want to die? (Death!)
Life going good, can't figure out why
Blank walls all around me, keep the pills nearby
Playin' with the nine, then I close my eyes
\$uicide only thing gonna gratify this urge to leave
Can't you hear my plea? I'm down on my knees

Eyes, eyes (Tickle)
Eyes, eyes (Tickle)
