

## Leave Your Things Behind

\$uicideboy\$

Dig me up and out the ground  
The Leopard spotted grave was found  
\$loth tossed the moss  
Cross upside down  
Wipe the dirt  
Off of my face  
In reverse  
Fuck disgrace  
I've been unlaced  
Stitch me up  
I'm not opaque  
Please don't excavate  
Intoxicated, Rotten  
My forgotten trait  
Take me to the coast and toss my body in the lake  
Watch me float away to my remote dismay

Leaving your things behind  
Me, I done lost my mind  
Think of you all the time  
Shawty just please be mine  
When I see you I just wanna die  
If I could there'd be tears in my eyes  
But a dead motherfucker can't cry  
Only rise up when I'm high  
Spilling my guts on this pavement  
Purple is always my fragrance  
That codeine is always my favorite  
But for you there just ain't no replacement  
Only place I reside is Opiate Street  
I believe I can fly when them Xan's up in me  
I believe when I die it'll be from an OD  
All these bitches cuisines and I'm eating for free
