

## Lo-Fi (Kill 'em All)

\$uicideboy\$

Selling crack at the crack of dawn  
Pushing a burgundy Benz  
Bet you've never seen a Goblin yawn  
Got a gang of Genghis Khans  
Drinking blood like a Sauvignon  
Welcome to my tundra terradome  
Sliced gold cheddar with an ice cold set  
Mongolian leather belt tied around my neck  
Fuck a cheap thrill, only the finest of deaths  
Loneliness is my finesse  
Satan in the flesh  
Me and God didn't mesh  
Unlimited freshness  
Grinning for death  
Money I need less  
Fuck a fucking check  
Check back with the Tec  
Mac-10 make you wet  
Fuck giving it thought when I could just get head  
Laying in bed thinking about how my life is like my bank account  
Bitch, it's empty and spent  
Now they be asking where Oddy Nuff went

It's that Lo-Fi (Five)  
Broken Sky (Nine)  
Golden dye (Five)  
Cold and dry (Nine)  
Ocean type (Five - Nine)

Yung Jax Teller  
Bodies in the cellar  
Hoe's like Hellen Keller, they ain't speaking, they ain't telling  
Butterfly blade  
Never rock a fade  
Got a few satanic ways for these fuck boys on my wave  
Skinny white creep seven days a week  
Smoking on that PCP, sipping on some DMT  
Never asked to rap because I don't like you mother fuckers  
Always on my back, bunch of biting mother fuckers

Five nine my fucking brothers  
Got your bitch under the covers  
It's that mary jane burning, syrup got me slurring  
Turning down on them spokes, hang me from a fucking rope  
Hang me from a fucking rope
