

Opal Ring

\$uicideboy\$

Straight out the mud sippin blood with them demons mane
Nobody fucks with me and cause cause we evil mane
I need a buzz need them drugs cause I'm fiendin mane
Don't show no love only slugs leave you leakin mane
Triple six killer walking around like I'm Percy Miller
You bought the issue but I promise that my pistol's bigger
Heart of a sinner, drug dealer, somethin of that mixture
\$uicide till I die know that they won't miss us

It looks like another dark night
Heart like a shark bite
Missing pieces
Feeling like a different season
Mark my words
I'll be in the dirt
Flirting with the worms
All this pain that I exert
I got a curse that just gets worse
I know I hate myself
Destruction is my seduction
Sucks when you press my buttons
Buzzing on the Robotussin
Chugging dozens with my cousin
Got a couple cuts now I don't feel nothing
