

In a Deep Hole with Clay and Remorse

Suis La Lune

In my head, I hope you have forgotten
But in my heart, I hope you still remember
That you said if I got homeless one day
You would keep a place for me to sleep at

In your home
Next to you

And you worry that I'm drinking too much
And you said I should take better care
I just wish I didn't bother you at all
When we fall
We fall hard
I fall down
I fall down

Pick me up
Help me stand
I just hope I don't depend on you too much

You could take care of yourself instead

Pick me up
Help me stand
I just hope I don't depend on you too much
You could take care of yourself instead

Sinking, drifting, failing, falling
This is all my fault
Sinking, drifting, failing, falling
This is all my work
Sinking, falling, drifting
This is not your fault
Sinking, falling, drifting
This is all just me

It's not up to you to fix me
