Or me, you won't realize it's me, you've been in mind for weeks  
, I was on my way to leave

You would never die for me (die for me)  
You won't realize it's me (realize me)  
You've been in my mind for weeks (mind for weeks)  
I was on my way to leave (way to leave)  
Running out of breath for me (breath for me)  
Rope around my neck for me (neck for me)  
You would never guess those things (guess those things)  
I don't even know who's me  
I don't even know who's me

I can't even lie, I would do anything to get you out my mind  
I would do anything just to get some white  
I would do anything just to see you shine  
I could do anything, but can never lie  
I could do anything, I don't gotta try  
I could do anything, if I got the time  
I'ma do everything

Wasting all my time, wasting all my time  
I can be a fool I know it's true (woah)  
You're running out of line, you're running out of line, baby, I  
can do nothing for you (yeah)  
Said she wanna die, said she wanna die  
Look me in the eye, told me she will never cry  
I can tell a lie, I can tell a lie, you ain't nothing new, don'  
t care about you (yeah)

You would never die for me (die for me)  
You won't realize it's me (realize me)  
You've been in my mind for weeks (mind for weeks)  
I was on my way to leave (way to leave)  
Running out of breath for me (breath for me)  
Rope around my neck for me (neck for me)  
You would never guess those things (guess those things)  
I don't even know who's me  
I don't even know who's me
