

Baseline

suisside

If I go so far at the mountain top
Girl I won't be here to help you
At the end that's all you want so why not let you

And I know I'll have my time
Let me be your baseline
Do me as you mind
I have all the patience

If I go so far at the mountain top
Girl I won't be here to help you
At the end that's all you want so why not let you

If I don't have the time and I'm running short
Will you take me with you
That's the shit we live through
I can't hear you

And I know I'll have my time
Let me be your baseline
Do me as you mind
I have all the patients

And I know I'll have my time
Let me be your baseline
Do me as you mind
I have all the patience

I swear I do
I swear I do
