suisside

Girl, I got a death wish (girl, I got a death wish)  
You've been laying in my deathbed (you've been laying in my deathbed)

It's time I have wasted (it's time I have wasted)  
She'd rather be all right she'd rather listen tonight

Girl, I got a death wish (girl, I got a death wish)  
You've been laying in my deathbed (you've been laying in my deathbed)

It's time I have wasted (it's time I have wasted)  
She'd rather be all right she'd rather listen tonight

Losing all my friends ain't good, I know it's hurting me, it's fucking up my mind (it's fucking up my mind)

Will you be by my side, if I have no one to get my mind of life  
(to get my mind of life)

Losing all my friends ain't good, I know it's hurting me, it's fucking up my mind (it's fucking up my mind)

Will you be by my side, if I have no one to get my mind of life  
(to get my mind of life)

I don't know nothing bout you, take a sip with me, you can tell me what's inside

I don't fear nothing for you, but you can fall for me cause you'll end up bout yo mind

I don't know nothing bout you, take a sip with me, you can tell me what's inside

I don't fear nothing for you, but you can fall for me cause you'll end up bout yo mind
