

The truth is behind the veil  
It's too bad you can't tell  
I will run away  
Until I'm whole again

Where's my helping hand  
Thought you were my friend  
The ghost is back again  
Have your beauty rest

You, you're just wanting an wanting more  
You, you're that thought in my head that hurts  
You, you're my poison and antidote  
You, you're afraid you're afraid I know

And I believe that I'm nothing special  
And I believe that I've been here forever  
And I believe that I'm nothing special  
And I believe that I've been here forever

The truth is behind the veil  
It's too bad you can't tell  
I will run away  
Until I'm whole again

Where's my helping hand  
Thought you were my friend  
The ghost is back again  
Have your beauty rest

You, you're just wanting an wanting more  
You, you're that thought in my head that hurts  
You, you're my poison and antidote  
You, you're afraid you're afraid I know
