

kill me

suisside

Fuck you fuck that

Kill me, please kill me
I'd rather die right now than
Just cry outloud
So kill me, please kill me
Send me to the clouds
And this hell I found
So kill me, please kill me
I'd rather die right now than
Just cry outloud
So kill me, please kill me
Send me to the clouds
And this hell I found

So kill me, girl I gotta go I got somewhere to be
You can come alone if you are fucking for free
Busted on the floor let me see what you mean
Let me get some more when you're done with the scene
I smoke dope just to get away
I do drugs to relieve the pain
I really don't worry but you fuck with my head
You fuck with my head
Baby, I will be ok

Kill me, please kill me
I'd rather die right now than
Just cry outloud
So kill me, please kill me
Send me to the clouds
And this hell I found
So kill me, please kill me
I'd rather die right now than
Just cry outloud
So kill me, please kill me
Send me to the clouds
And this hell I found
