

Yeah, I can not remember
Did I hold you in my hands like nothing last forever? (No)
What a stupid ending
I have many questions
And I know you have the answers (No)
So run while you can (So run while you can)
'Cause I need you the most tonight
I grip up your hands (I grip up your hands)
And you don't seem to mind

I got drugs to hold you down
When I'm in town you're not a threat
I got more so stick around
Times running short and I'm such a mess
I can't grow to be a let down
I'm a let down sucks for me
It's a burden, I can't set down
By the way, how's everything?

Believe what you want to believe
But I saw it with my eyes
Believe, girl, you gotta believe
I promise you I'm right

I got drugs to hold you down
When I'm in town you're not a threat
I got more so stick around
Times running short and I'm such a mess
I can't grow to be a let down
I'm a let down sucks for me
It's a burden, I can't set down
By the way, how's everything?
