

Means Nothing

suisside

When you call my name I ain't coming (I ain't coming)
Laying down my guard I'm bugging
But I know it's rotting, know it's worth it
But this shit means nothing to you (means nothing to you)

I'll put you in your place stop talking (talking)
You ain't making sense, stay focused
And I can't build something feel like god is nothing but this s
hit
Means nothing to you (means nothing to you)

Clumsy on your feet, stop walking
You can knock me down
I love it when I come right uphill
Know I'm honest, but this shit means nothing to you (shit means
nothing to you)

I don't got the time, I'm working (I'm working)
When I need it all, you're running, bitch you can't face nothin
g, can't be trusted
And that shit means nothing to me (means nothing to me)

Good for all the shit I need
The crying stars, know you're conning me
I won't tell you shit bout me
If you hear my songs you'll know what's wrong with me
Living like the shits been seen
Hear them come, but this time it's not for me
I will never stop this deep, but it's way too much, up baby up
for me
Shout out to the ghost inside my room
Helping me cope like it did with you
Shout out to the bud inside my room
Making me strong, but it's nothing to you

When you call my name I ain't coming (I ain't coming)
Laying down my guard I'm bugging
But I know it's rotting, know it's worth it
But this shit means nothing to you (means nothing to you)

I'll put you in your place stop talking (talking)
You ain't making sense, stay focused
And I can't build something feel like god is nothing but this s
hit
Means nothing to you (means nothing to you)
