

# Peak Of The World

suisside

This how we feel, it's the peak of the world  
How can I deal with the pain of your words  
It's like a thrill can't explain in my thoughts  
I keep it real till the end of my time

This how we feel, it's the peak of the world  
How can I deal with the pain of your words  
It's like a thrill can't explain in my thoughts  
I keep it real till the end of my time (time)

Bitch you got away from me  
I've been drugged bad so I took  
Another pill you can keep what you get from me (get from me, wh  
at you get from me)  
Shawty tried to get my tims  
Keep it a stack but you cut me in half  
I'ma show you I can guess your sin, I felt that

I can't kill what is left of me, I've been dead  
You can tell I'm the faith you seek, now spread that  
I can tell you who was in my dream, I can't die  
Everyday I run you went to sleep

This how we feel, it's the peak of the world  
How can I deal with the pain of your words  
It's like a thrill can't explain in my thoughts  
I keep it real till the end of my time (time)
