

I tried it all but it won't work  
Can I see you tonight?  
Only if the time is right

This ain't the place that I come from  
I see them coming surprised  
I'm nearing the end of my life  
Here come my final words  
I said I'll see you tomorrow (See you tomorrow)  
I said I'll see you tomorrow (See you tomorrow)  
I said I'll see you tomorrow (See you tomorrow)

Watch that attitude of yours  
I can't make you hate it more  
You just have to sit and wait

I'm just a thing to remember  
I'll make you never forget me  
I saw you thru the lights

This ain't the place that I come from  
I see them coming surprised  
I'm nearing the end of my life  
Here come my final words  
I said I'll see you tomorrow (See you tomorrow)  
I said I'll see you tomorrow (See you tomorrow)  
I said I'll see you tomorrow (See you tomorrow)

Watch that attitude of yours  
I can't make you hate it more  
Is this always what they meant  
You just have to sit and wait

I said I'll see you tomorrow  
I said I'll see you tomorrow
