

Cooler Place In The World

Suki Waterhouse

You appeal to a girl like me
Told me every blessing has a scar and
Love is held in the cathedral
God exists between people, homie
Humans fuck up more than anyone else and we
Shouldn't be scared to want less
But you're in love with four people and you say

Humans fuck up, humans fuck up
And I'll fuck this up 'cause this blessing's a scar
And all that I know is

I just think anywhere that you are
Cooler place in the world, cooler place
I just think anywhere that you are
Cooler place in the world
Cooler place in the world

Promised me we would sleep
Frankincense got me high
You told me about school
How your trauma blew up into art, you say

Humans fuck up, humans fuck up
And I'll fuck this up 'cause this blessing's a scar
And all that I know is

I just think anywhere that you are
Cooler place in the world, cooler place
I just think anywhere that you are
Cooler place in the world, cooler place
I just think anywhere that you are
Cooler place in the world, cooler place
I just think anywhere that you are
